- Heavy Traffic

COMPANY INTRODUCTION

Setting new standards with the introduction of NEPAL STANDARD (NS) for Pavers and Kerbstones by Nepal Bureau of Standards and Metrology; Asian Concrete is Nepal's first company to manufacture Nepal Standard Certified Paver and Kerbstones and also is Nepal's largest company in the concrete landscaping industry. Located strategically in the western part of Nepal in Nawalparasi, Asian Concrete produces an extended range of superior grades concrete landscaping products such as concrete pavers, tiles, bricks, hollow blocks, and kerbstones. With the products being available in a large variety of colors, patterns, and designs to cater to a vast range of clients, the products are suitable for all kinds of architectural, residential, commercial, industrial & institutional projects. Asian Concrete's state-of-the-art German plant makes the entire process of production and quality control completely automated ensuring that the products are produced in high strength, quality, accuracy, and design. Incorporating the latest technology and business practices, Asian Concrete goes above and beyond the current market trend and competition by ensuring stylish, modern, and durable outdoor paving solutions. Asian Concrete is committed to providing quality products, prompt delivery, and active involvement in the projects till their entire completion. All of our concrete paving products are crafted to the highest quality to ensure years of enjoyment. This gives you the peace of mind to know that your Asian Concrete product will last for years to come.

ASIAN PAVERS' AS PER YOUR REQUIREMENT

We hold expertise in manufacturing, supplying, exporting, and retailing a premium quality range of Interlocking Concrete Paver as per different traffic movements. Asian Pavers are highly demanded installations in parking lots, pathways, patios, and many other places. Our pavers are very robust and have an excellent capacity to withstand varying pressure and abrasions. They are also very stylish and available in multiple options to our clients at a market-leading range of prices.

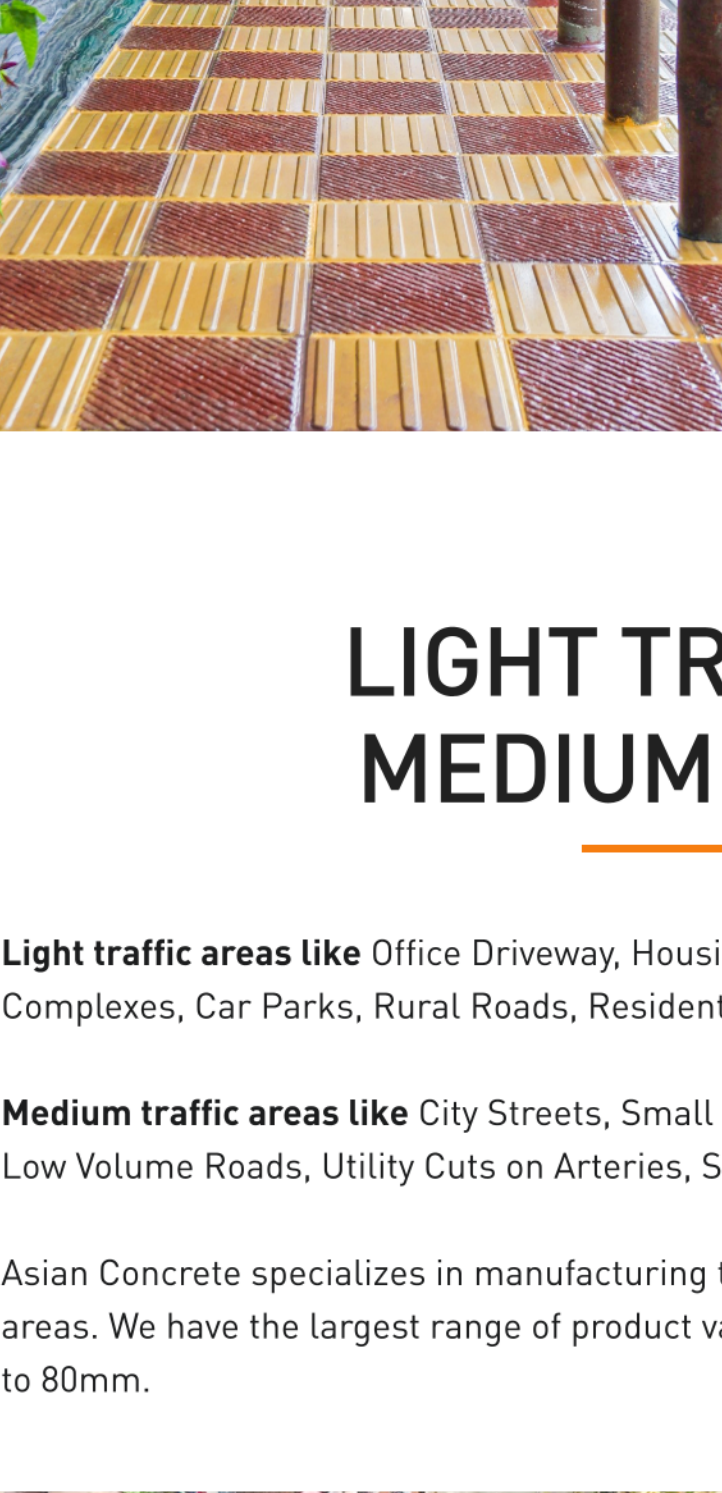

Not that long ago, many used poured or stamped concrete for commercial and residential applications, but with the rise of concrete pavers and their exceptional strength, durability, easy application, and speedy repairs, concrete pavers have become the new industry standard. Regardless of whether you are building a walkway, driveway, patio, or any other heavy-traffic area, Asian Pavers offers great structural strength suitable for these projects.

NON-TRAFFIC

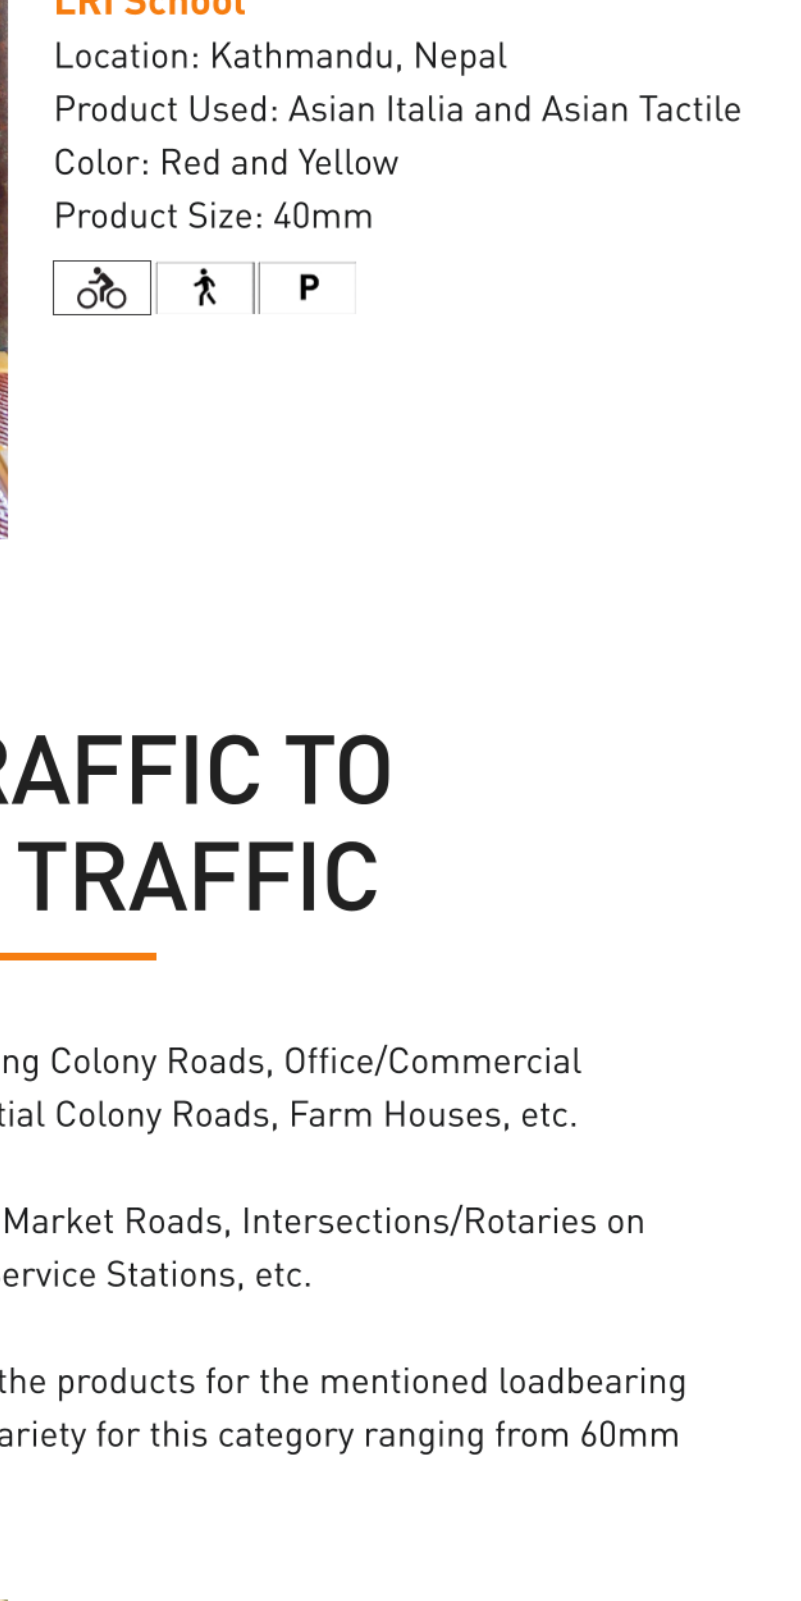

Non-traffic areas are defined as areas where no vehicular traffic occurs. Asian Pavers starting from 40mm to 50mm size are reasonable and perfect for zero traffic movements.

Asian Tiles such as Matrix Tile, Arena, Italia, Fusion Mix Tile along with 50 mm Asian Hexagone and 50 mm Asian Behaton Pavers are majorly used in Footpaths, Malls, Building Premises, Pedestrian Plaza, Landscapes, Monuments Premises, Premises, Public Gardens/Parks, Shopping Complexes, etc.

Paramount Boarding School
 Location: Butwal, Rupandehi, Nepal
 Product Used: Asian Matrix Tile
 Color: Grey and Red
 Product Size: 40mm

Maya Devi Resort
 Location: Bhairahawa, Nawalparasi, Nepal
 Product Used: Asian Fusion Mix Tile
 Color: Brown - Blended and Grey
 Product Size: 40mm

LRI School
 Location: Kathmandu, Nepal
 Product Used: Asian Italia and Asian Tactile
 Color: Red and Yellow
 Product Size: 40mm

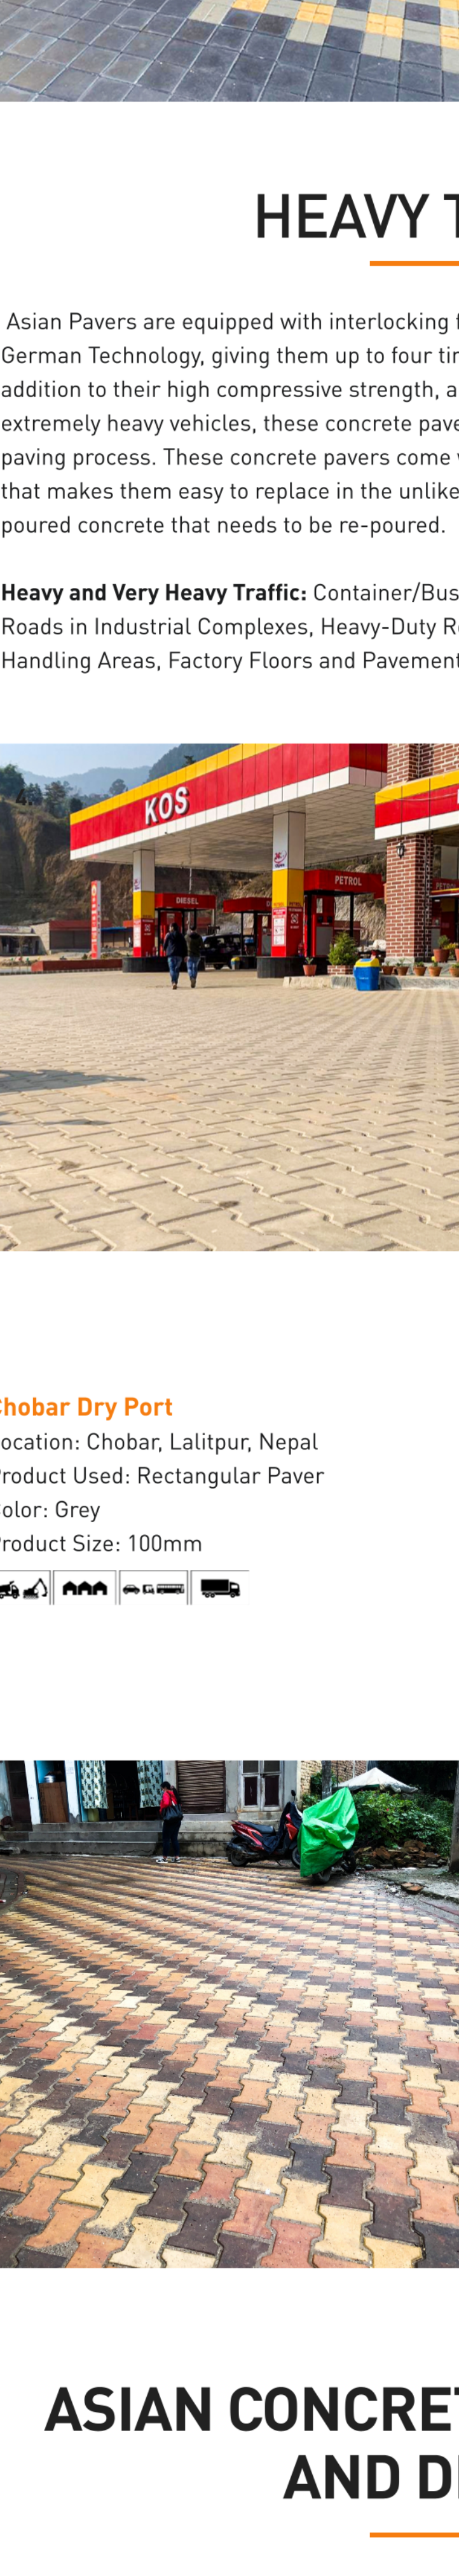

LIGHT TRAFFIC TO MEDIUM TRAFFIC

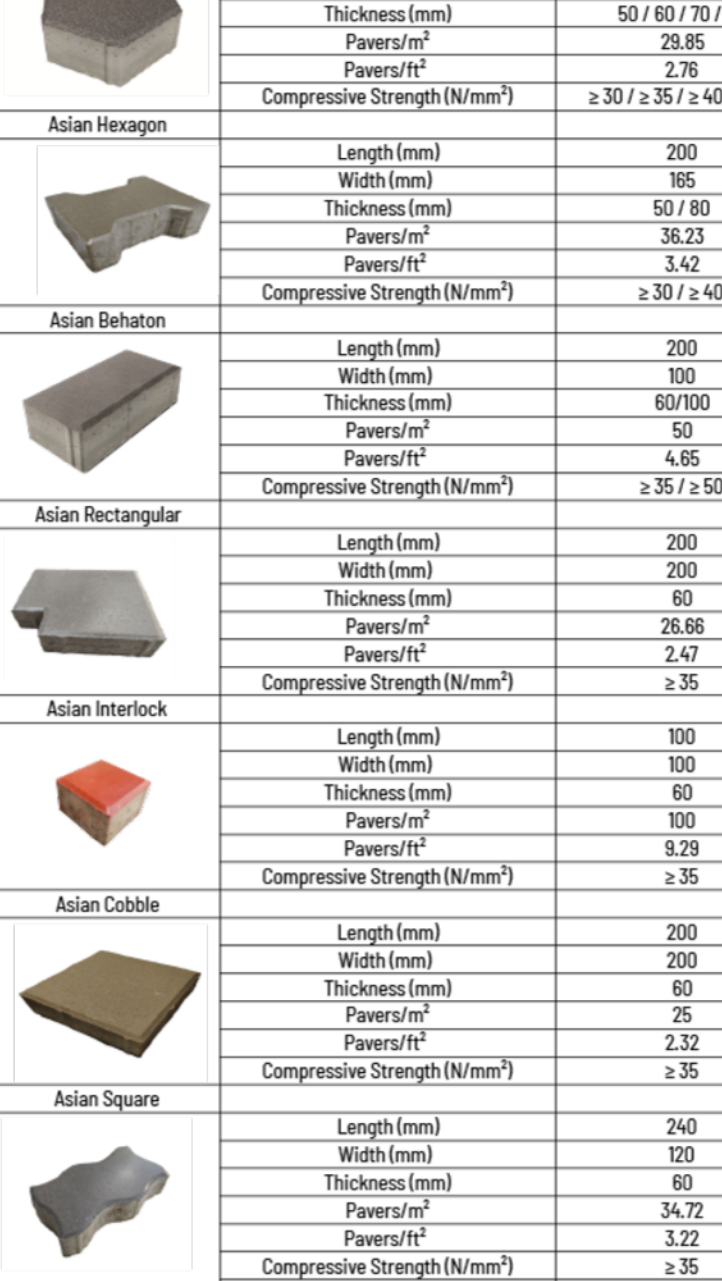

Light traffic areas like Office Driveway, Housing Colony Roads, Office/Commercial Complexes, Car Parks, Rural Roads, Residential Colony Roads, Farm Houses, etc.

Medium traffic areas like City Streets, Small Market Roads, Intersections/Rotaries on Low Volume Roads, Utility Cuts on Arterials, Service Stations, etc.

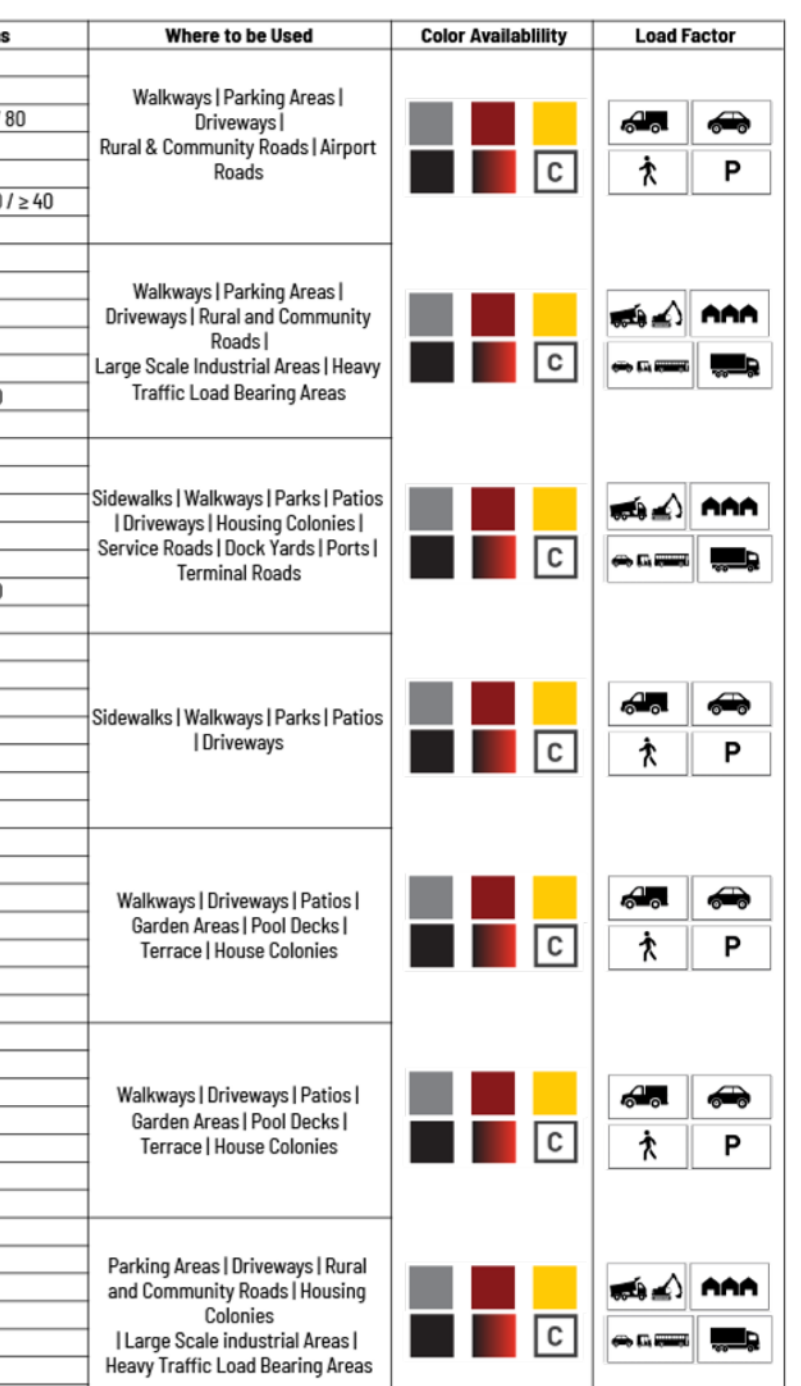

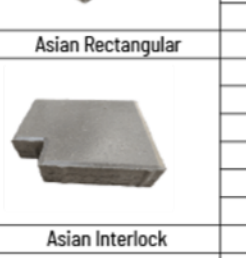

Asian Concrete specializes in manufacturing the products for the mentioned loadbearing areas. We have the largest range of product variety for this category ranging from 60mm to 80mm.

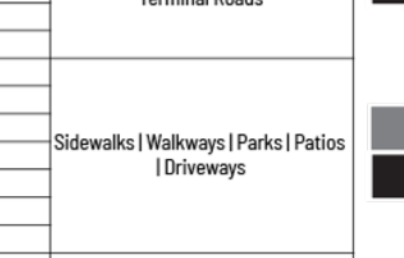

Chakupat Community Road
 Location: Chakupat, Lalitpur, Nepal
 Product Used: Asian Rectangular Paver
 Color: Red-Blended, Yellow
 Product Size: 60mm

Al Zame Atul Barkatiya Zame Masjid
 Location: Narayanganj, Chitwan, Nepal
 Product Used: Asian Square
 Color: Red and Yellow
 Product Size: 60mm

The Burger House
 Location: Bharatpur, Chitwan, Nepal
 Product Used: Square Paver, Rectangular Paver, and Cobbles
 Color: Black, Grey, and Yellow
 Product Size: 60mm

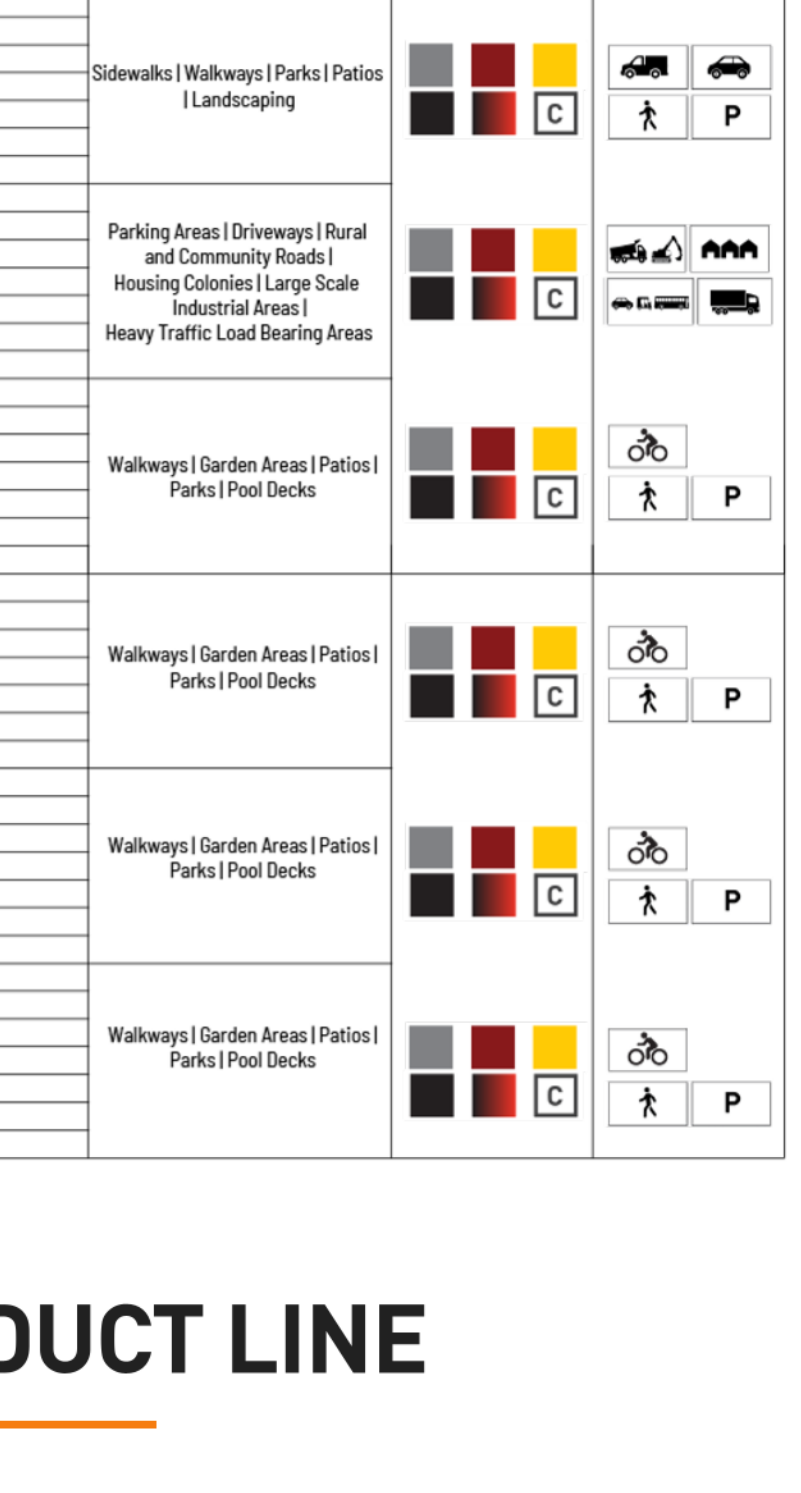

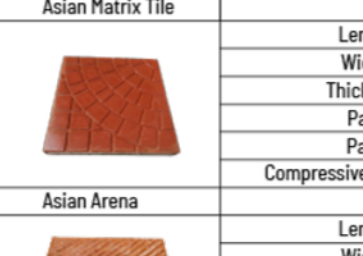

HEAVY TRAFFIC

Asian Pavers are equipped with interlocking features manufactured in the World's Best German Technology, giving them up to four times the strength of poured concrete. In addition to their high compressive strength, allowing these pavers to support the load of extremely heavy vehicles, these concrete pavers offer an invaluable flexibility throughout the paving process. These concrete pavers come with an incredibly simple interlocking system that makes them easy to replace in the unlikely event that repairs are required, unlike poured concrete that needs to be re-poured.

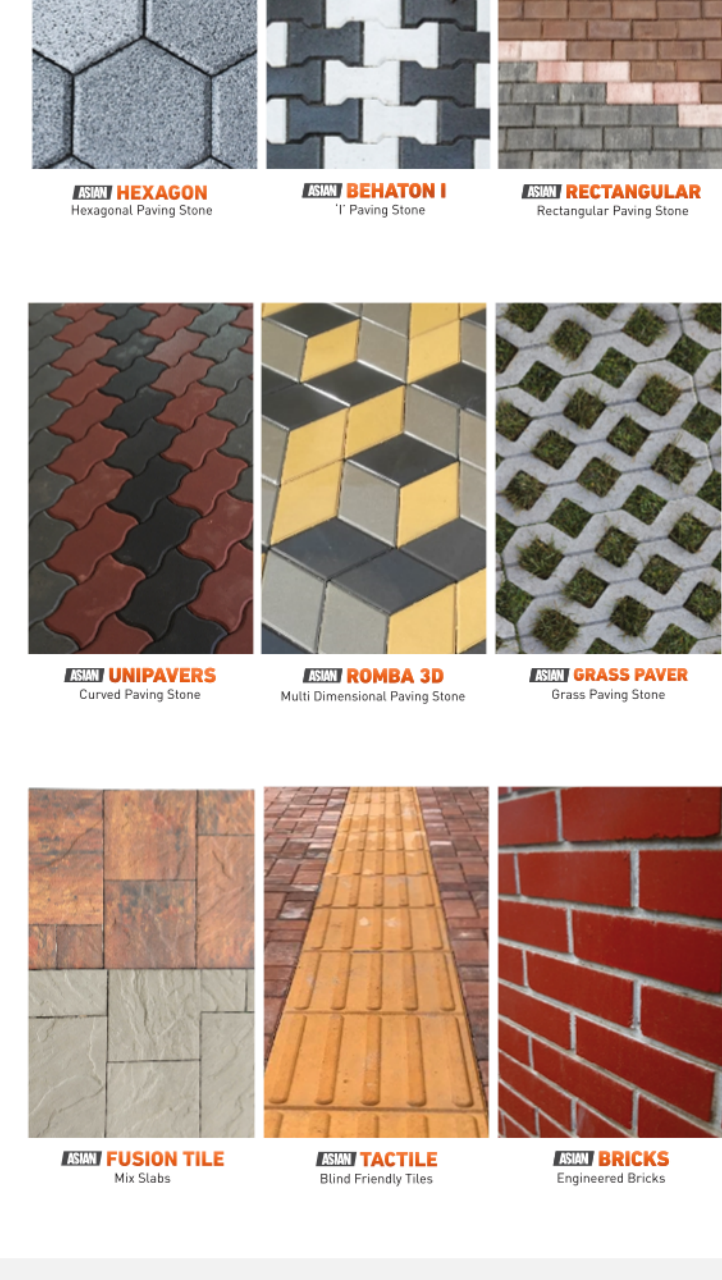

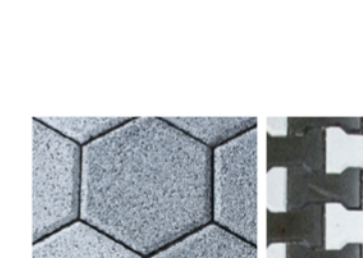

Heavy and Very Heavy Traffic: Container/Bus Terminals, Ports/Dock Yards, Mining Areas, Roads in Industrial Complexes, Heavy-Duty Roads on Expansive Soils, Bulk Cargo Handling Areas, Factory Floors and Pavements, Airport Pavement, etc.

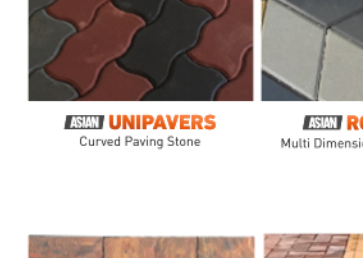

Dumre Petrol Pump
 Location: Dumre, Tanahu, Nepal
 Product Used: Behaton I Paver
 Color: Grey
 Product Size: 80mm

Chobar Dry Port
 Location: Chobar, Lalitpur, Nepal
 Product Used: Rectangular Paver
 Color: Grey
 Product Size: 100mm

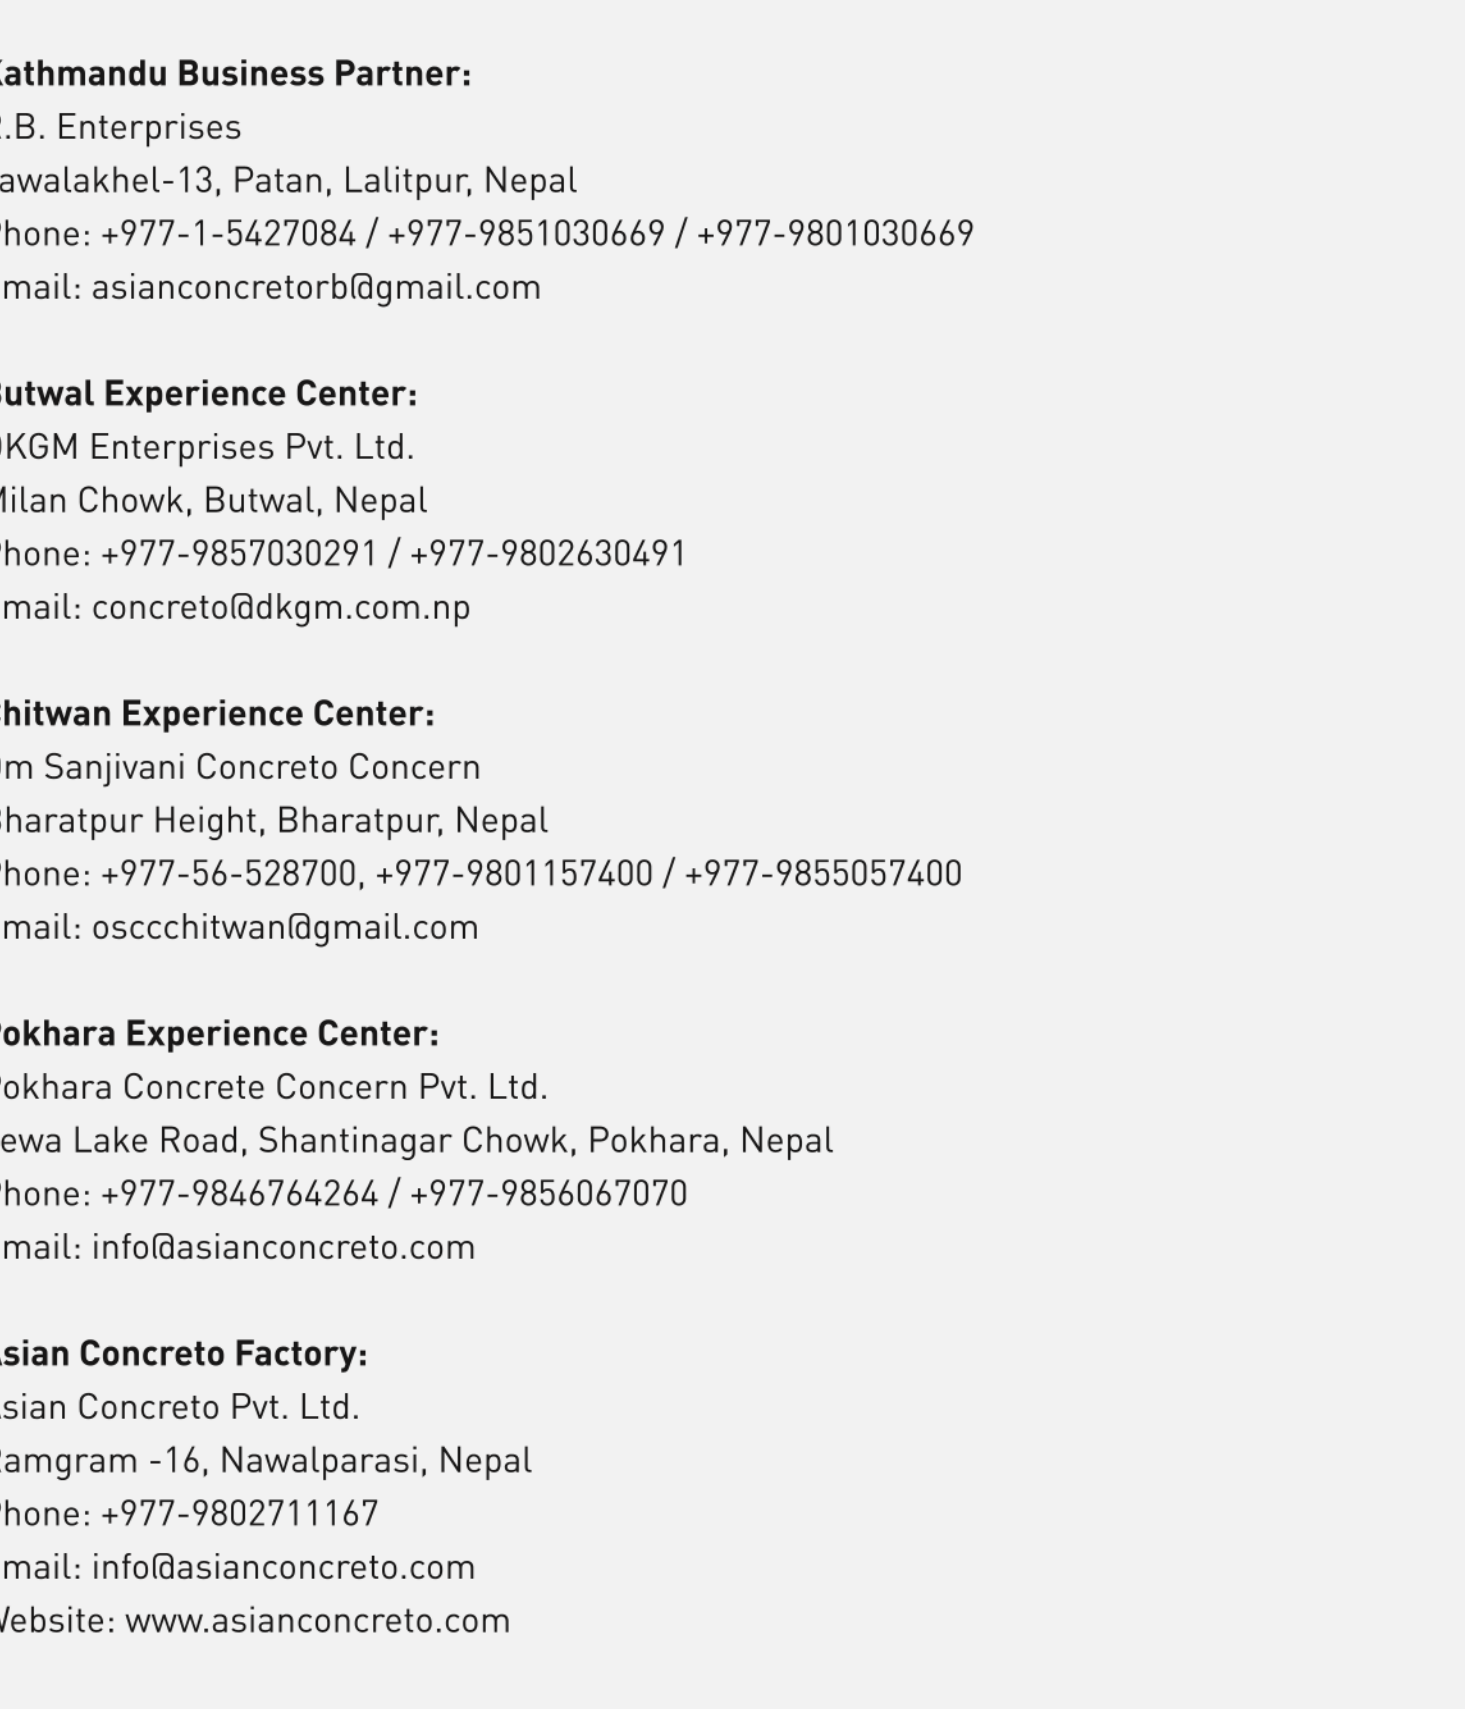

Ashok Hall Road
 Location: Patan, Lalitpur, Nepal
 Product Used: Behaton I
 Color: Yellow, Brown, Black (All Blended)
 Product Size: 80mm

ASIAN CONCRETO'S PRODUCTS AND DETAILS
